

# Do 270%\* More For Your Mission

Non-profits turn to Airbase to optimize financial management

“We are now able to carefully control spend, easily track who is spending, and, more importantly, hand autonomy over to our staff for certain areas of spend that are already budgeted for.”

— Non-profit review on G2.

## Airbase lowers non-payroll spend across five quantifiable areas.

Every dollar is precious to your cause. With Airbase’s procure-to-pay platform, not only will every dollar go further, but your AP team can even generate revenue by using Airbase’s Smart Pay.

With Airbase, you’ll be a better steward of your organization’s funds and drive greater impact.

Improve your key operating metrics with Airbase.

Metric	How Airbase Helps
Program expense ratio	Gives visibility and control over all non-payroll spend
Administrative expense ratio	Lowers overhead costs of your financial operations
Debt-equity ratio	Reduces your liabilities with better procurement practices

Increase Spend Under Management	Improve Processes	Save Time & Money
<p>Maximize Pre-Approved Spend</p> <p><b>95-100%</b> by top companies</p> <hr/> <p>Optimize AP Automation</p> <p><b>75%</b> bills matched to POs</p>	<p>Decrease Average Cycle Time</p> <p><b>2-6 days</b> for spend approvals</p> <hr/> <p>Simplify Employee Expenses</p> <p><b>1 day</b> submit to approval</p>	<p>Close the Books Faster</p> <p><b>50%</b> time saved on month-end close</p> <hr/> <p>Optimize ROI</p> <p><b>1-4x</b> average cash back to subscription</p> <p><b>40%</b> spend on virtual cards: pay bills, travel, subscription to maximize cash back</p>

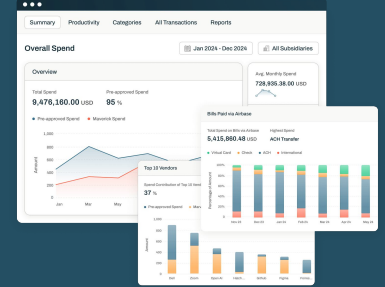

\*Forrester’s Total Economic Impact Report found that in the use case they studied, Airbase generated a 272% ROI.

# How does Airbase's spend management software work?

## Spend Analytics

You can't control what you can't measure. Airbase tracks organization-wide spending as it happens and identifies roadblocks in your processes. Stop wasted spend and improve accountability.

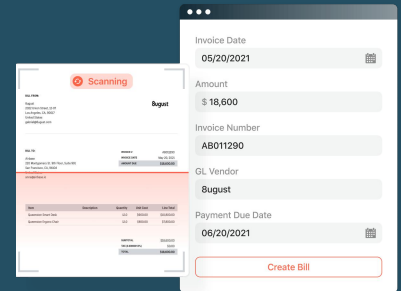

## Guided Procurement

Ensure all spend is compliant, approved, and fully visible to all stakeholders with Airbase's configurable intake module. Let the system enforce procurement policies so you can stay on budget and increase the impact of limited resources.

“ Our non-profit uses Airbase primarily for employee stipends and reimbursements. What I love about using Airbase is it's so simple. — Non-profit review on G2. ”

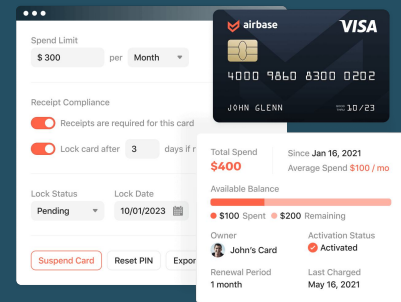

## AI-Powered Touchless AP Automation and Expense Reporting

Save time and headcount with AP and expense management that flows from initial request to closing your books. OCR technology reads every line of your invoices and Airbase processes them. Every expense is automatically coded from receipts and routed for approval before payment.

## Software-Enabled Corporate Cards

Our virtual cards offer pre-approved spending, security, and automatic syncing to the general ledger. Earn cash back with every card transaction and ensure a full audit trail.

“ It allowed me to set employee spending while also giving them autonomy over buying... As a non-profit, we have also been able to create virtual cards for partner organizations where we provide services for them to order their own supplies. — G2 review ”
